  ReactJS, NodeJS, MongoDB Created a web application for users to upload and manage songs with playlist support with logi
- **Garage Service's** — *Aug 2024 –Nov 2024*
  Next.js, TypeScript, Tailwind CSS, Twilio API's This app is for booking purposes in an easy way to book their slots via contact details.
- **Bank Management System** — *Jul 2023 – Dec 2023*
  HTML, JS, XAMPP, MySQL Managed accounts, fund transfers, and user authentication.

Experience

Project-Based Work: Worked independently on several full-stack and IoT-based projects, enhancing my ability to research, debug, and implement efficient solutions. These projects strengthened my problem-solving mindset and practical understanding of real-world applications.

Team Collaboration: Collaborated with peers on web and backend systems, contributing to design, testing, and deployment. Developed teamwork, communication, and coordination skills while achieving common technical goals.

Examples: Job Portal, Garage Service's, Vibe Guru, Bank Management System.

Hobbies

Reading Articles · Playing Video Games · Playing Cricket · Playing Chess · Solving Rubik's Cube
